MOSCOW AND KAZAKH PLANTS
ATTAIN 1950 PRODUCTION LEVEL

MOSCOW INDUSTRY REACHES 1950 LEVEL -- Vechernyaya Moshva, No 142, 16 Jun 49

During April, Moscow industry reached the average monthly level of production planned for 1950 for the majority of main types of industrial production. April production of the main types of products was as follows:

Apr 49 in % of 1950 level

Steel	118.7
Rolled iron	130
Electric power	129.6
Black copper	134.6
Refined copper	117.7
Metal-cutting machines	104.4
Steam boilers	101.8
Caustic soda	161.5
Rubberoid	152.5
Permalloy	145.6
Silk fabric	108.6
Hosiery	109.6
Leather shoes	105.3
Confectionery products	104.2
Vegetable oil	102.4

Especially successful were enterprises of the following industries: machine-tool building, agricultural-machine building, chemical, electrical, communications equipment, metallurgical, machine- and instrument-building, and construction- and road-machine building.

50X1-HUM

The following plants have fulfilled the Five-Year-Plan ahead of schedule: "Dinamo" Plant imeni Kirov, "Serp i Molot" Plant, Transformer Plant, Plant imeni Molotov, Electric Lamp Plant, "Moskabel'" (Moscow Cable) Plant, "Frezer" Plant, "Kauchuk" (rubber) Plant, brake plant, "Tochizmeritel'" (precision measuring instrument) Plant, Plant imeni Budenny, "Komega" Plant, Moscow Tool Plant, Plant imeni Malenkov, Hard Alloys Combine, "Manometr" Plant, "Stankolit" Plant, Searchlight Plant, Dorogomilovskiy Chemical Plant, "Metallorukav" Plant, "Krasnaya Presnya" Plant, "Tizpribor" Plant, "Plastmass" (plastics) Plant, Krasnokholm Combine.

The following factories have fulfilled the Five-Year-Plan: Worsted Yarn Plant imeni Kalinin, "Zarya svobody" Shoe Factory, and Hosiery Factories imeni Bauman and imeni Nogin.

More than 96 percent of Moscow industrial and transport workers are now engaged in socialist competitions. Moscow workers are keeping their pledge to release 1.3 million rubles by speeding the turnover of working capital this year.

CALL ON KAZAKH COMMUNISTS TO UP OUTPUT -- Kazakhstanskaya Pravda, No 111, 10 Jun 49

Dozens of Kazakh plants and factories have completed ahead of schedule the 1949 5-month plan and have attained the level of production set for the end of 1950. Two thirds of Alma-Ata enterprises have fulfilled the Five-Year Plan in respect to the level of production.

Despite these successes, many enterprises, including the Chimkent and Leninogorsk Lead Plants, the Tekeli Lead and Zinc Combine, and the Balkhash Copper Smelting Plant, have consistently failed to meet their plans. These failures are the concern of all Party organizations.

The Party organization at the Ust'-Kamenogorsk Zinc Plant serves as a good example of successful political work. This plant has exceeded its gross-production plan from month to month and has already attained the level of production planned for the end of 1950.

On the other hand, the Dzhezkazgan Mine, consistently fails to meet its ore-mining plan, although more than 200 Party members and candidates work there.
